Angry at missing a week of summer video game entertainment, Jesse, a twelve-year-old boy of European/Native American descent, grudgingly follows through with his deceased father's request that he join his Uncle Matthew and cousin Jason at Six Islands, on Georgian Bay, for a special camping trip. Uncle Matthew explains that Jesse's father wanted Jason's vision quest to be his introduction to their native culture. During their first night around the camp-fire, it is Jesse who has a vision, and the adventure begins. Not only is he swept back in time four hundred years, but he is transformed into a majestic, white-tailed deer. He must now survive the expert hunting skills of his ancestors while somehow rescuing his people before they are destroyed by warfare.

This is the story of a Hebridean island as it has rarely been told before -- of the landlords, tacksmen, cottars, and others who actually lived on or visited the island of Mull. What is life? The gene's eye view of life sees living bodies as mere vehicles for the replication of genetic codes. Noble sets out an alternative view - that the genome is not. Nehalem explores the impact of illegal international fishing on a community where the ocean provides practical and spiritual meaning for local lives and relationships.
